

"We can shape
your success"

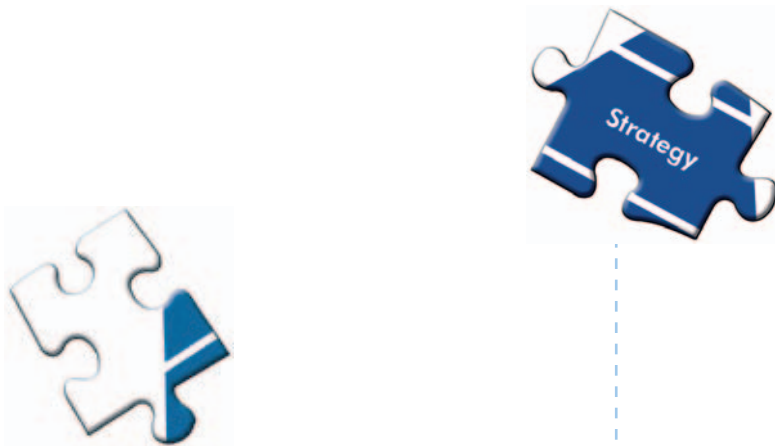

We can shape your success...

Here at CN-Consult GmbH, we can shape and support your IT development processes. Professionalism, creativity and efficiency are our trademarks. Our expertise can give you a solid base from which to put your ideas into a successful practice. We can find the right pieces to complete your jigsaw!

...using our expertise

- ▲ Project management
- ▲ System/process analysis, process modelling
- ▲ Quality management/quality systems for IT
- ▲ Fulfil client needs using your own team or ours
- ▲ Carry out hardware projects, develop customised hardware (embedded systems)
- ▲ Develop customised software
- ▲ Technical rollouts/software rollouts
- ▲ Internet applications using databases
- ▲ Mathematical simulations and optimisation
- ▲ Internal and external project communication, press and PR

...using strategy

As we operate in all sectors, we can tackle the precise situation which has created your need. We can then put together interdisciplinary teams of experts to provide the best possible customised solutions.

How you benefit

- ▲ project is executed by a single supplier
- ▲ Transparency, achieved by methodical procedures based on strict quality criteria
- ▲ Team design: we can supplement your team, including with individual consultants
- ▲ Objective-led supplier management
- ▲ Project auditing

...using joint analysis

Our input aims to help your company meet new challenges. We will work with you to analyse the current situation and identify the specific implementation needs that have to be met.

**...and we shall be delighted
to be your expert partner!**

With skills comes responsibility

German saying
